From hotels to meeting space to car parks, IDeaS' revenue science solutions empower business leaders and revenue managers to achieve greater profitability and productivity.

Sophisticated yet Simple Solutions

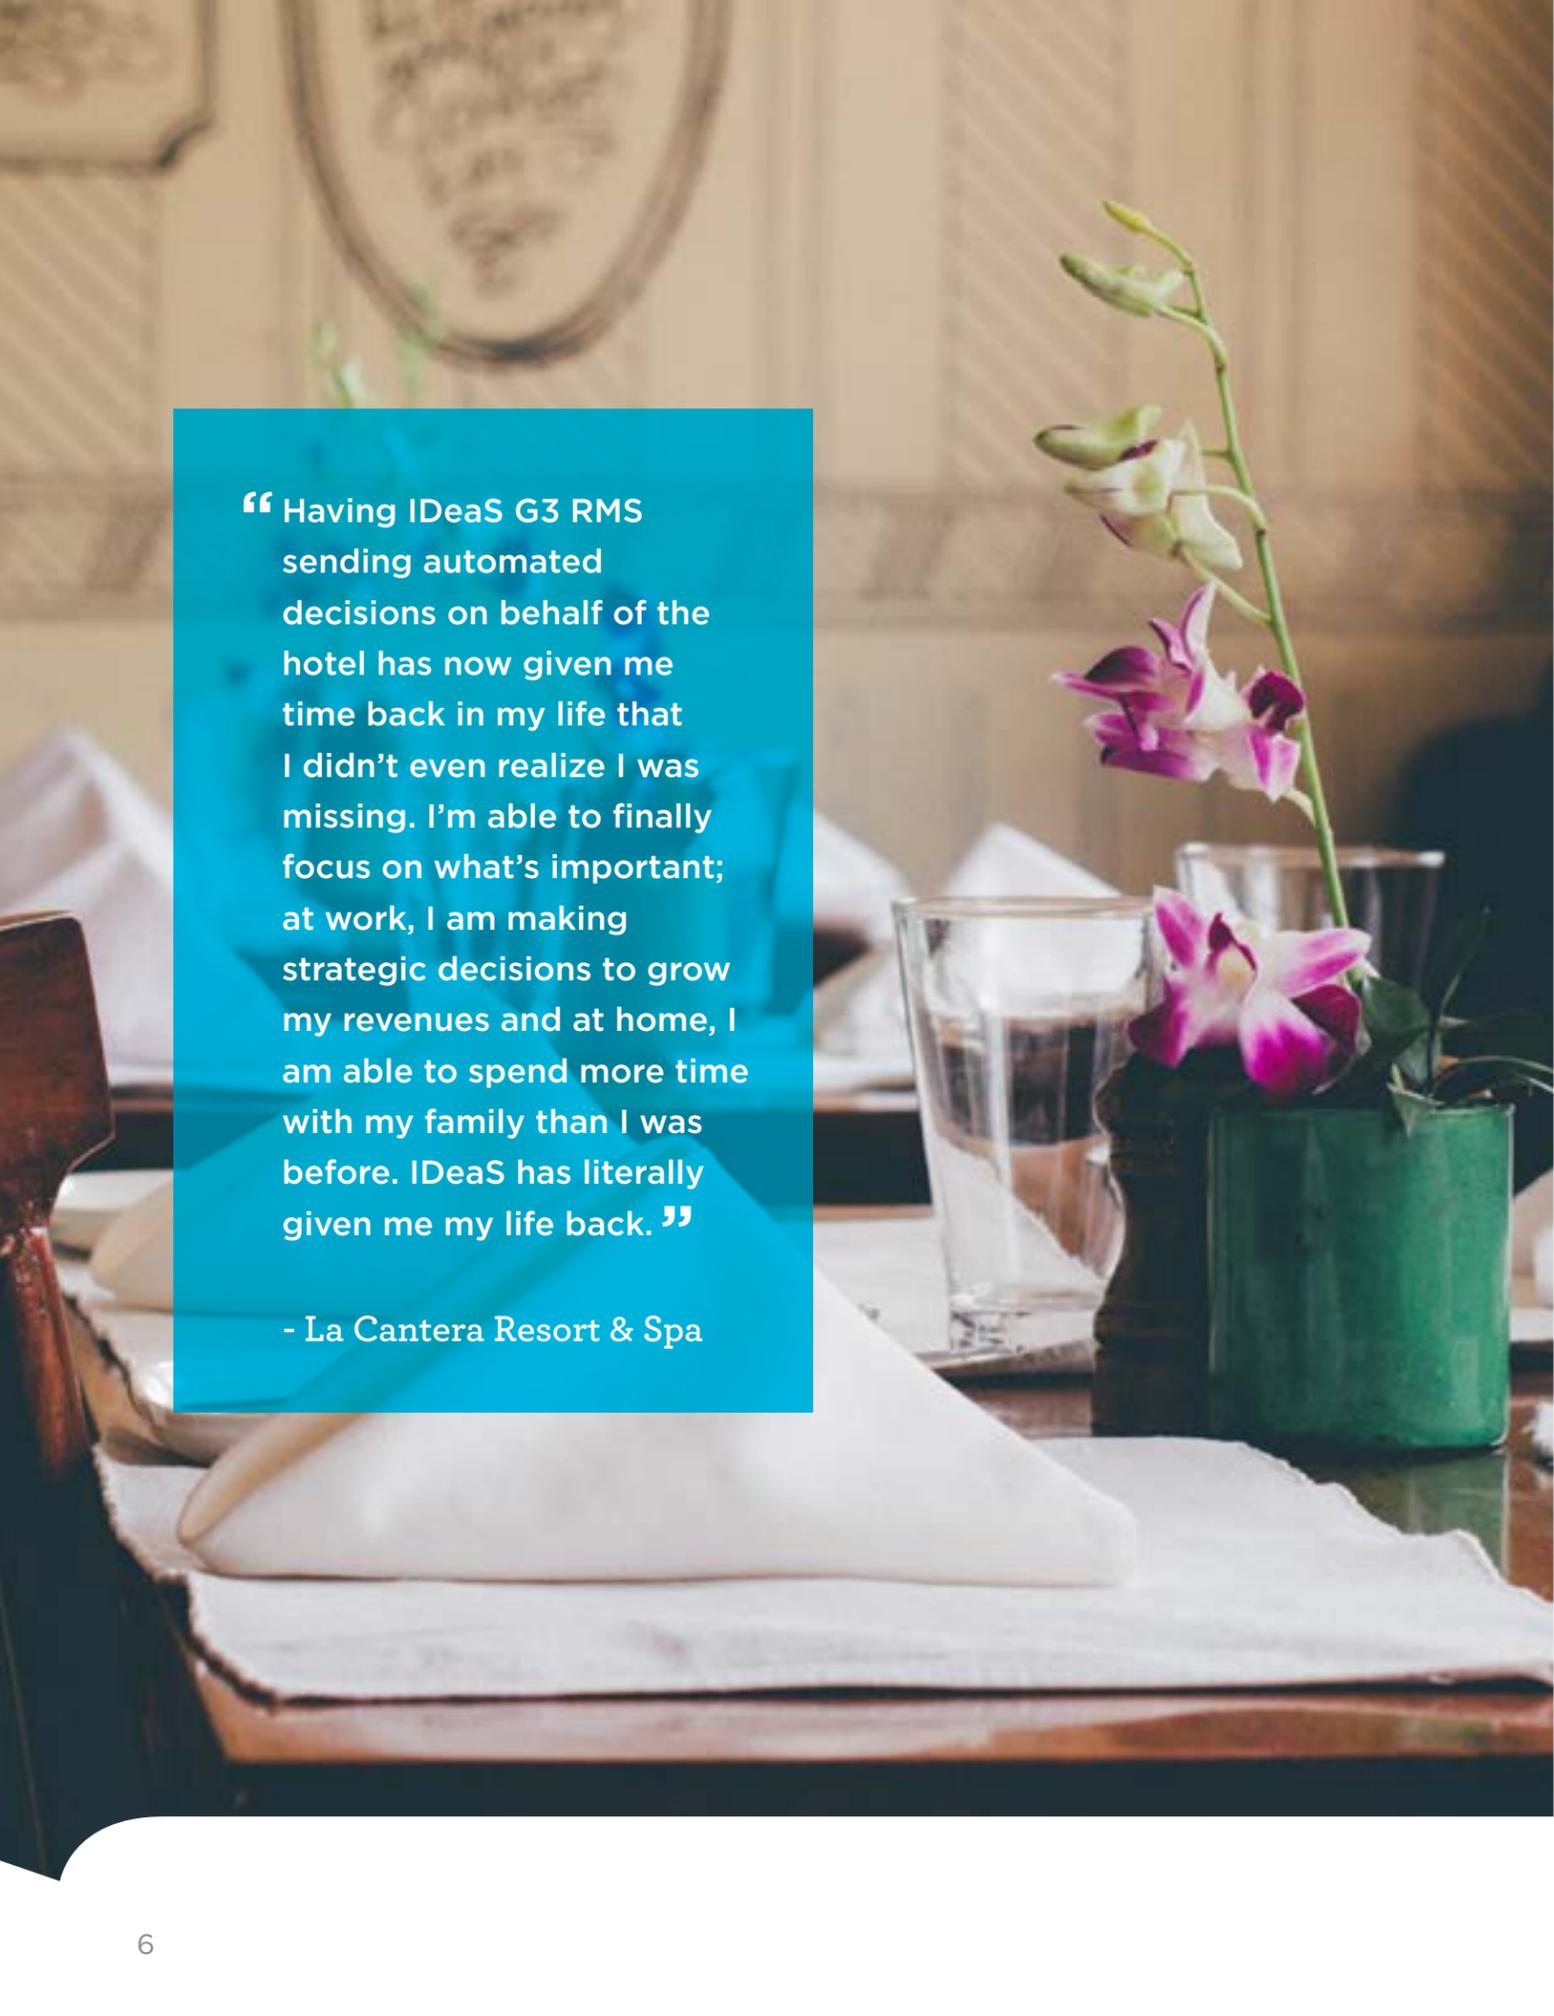

Abundant data. Inherent complexity. Constant change. The new realities of pricing and forecasting have made sophisticated analytics a permanent part of the revenue management landscape, replacing guesswork and gut checks with empirical science and data-driven decisions.

IDeaS infuses its leading analytics technology with deep knowledge of your business. Forecast accurately, price confidently, and achieve greater profitability faster with the world's most trusted revenue management solutions.

“ We have sold rates that I would have never published if I hadn't been working with IDeaS. In August of this year, for example, we had revenues up 16 percent versus last year and 8 percent over budget. ”

- Grand Hotel Minerva

“ Having IDeaS G3 RMS sending automated decisions on behalf of the hotel has now given me time back in my life that I didn’t even realize I was missing. I’m able to finally focus on what’s important; at work, I am making strategic decisions to grow my revenues and at home, I am able to spend more time with my family than I was before. IDeaS has literally given me my life back. ”

- La Cantera Resort & Spa

Goodbye, Spreadsheets. Hello, Automation.

Whether you work for a luxury hotel brand or budget chain, resort or independent, intelligent revenue management makes the difference between adequate metrics and outstanding growth. IDEaS solutions range from standalone pricing, forecasting and data visualization systems to fully-loaded revenue management solutions, highly configurable to your company's needs. Our cloud-based solutions are available anytime on your desktop or on-the-go.

IDEaS G3 Revenue Management System

The most scientifically advanced, easy-to-use cloud-based solution, IDEaS G3 Revenue Management System utilizes best-in-class SAS® analytics to redefine how you leverage hotel and market data to improve profits and strengthen competitive advantage. IDEaS G3 RMS provides the most flexible and powerful approach to pricing and inventory control by room type and length of stay, generating maximum overall revenue.

“ With IDEaS, we benefit from understanding true demand by each room type and length of stay and can price accordingly. The ability to configure the pricing methodology by property is a distinct differentiator. ”

– Lindner Hotels and Resorts

IDEaS Revenue Management System

Our flagship revenue management system provides reliable and up-to-date information at your fingertips, empowering revenue managers worldwide to book the ideal guest at the ideal time at the ideal rate. Utilizing a time-saving approach, the system automatically applies your revenue strategy while the intuitive user interface immediately alerts users to any system-critical tasks.

Automated. Accurate. Actionable.

IDEaS' unique approach to revenue strategy ensures that historical data, competitor rates, reputation scores and relevant forward-looking market data influence forecast and pricing optimization. Stay informed with actionable intelligence on consumer behavior, online feedback and market performance all within your automated solution.

“ In previous years, our hotels manually managed New Year’s Eve with high-rate overrides and advanced purchase requirements. This year, we allowed IDEaS RMS to manage the day, resulting in significant shoulder occupancy increase and an extraordinarily positive impact on the period market share. We had to question the accuracy of the STR report, as we had such extraordinary market share relative to the previous year.”
